

Certification News

to share with your Community/Chapter Members

Welcome to your new role as a 2021 Certification Liaison! I am the 2021 Chair of the Professional Certification Board's (PCB) Community/Chapter Liaison Committee. I will send you periodic updates about the ASIS Certification Programs, but I encourage you to reach out to me if you have specific questions at certification@asisonline.org.

The PCB knows that a major concern for you is how best to promote the ASIS certification programs to your members. Here is some great information for you to share in your next Community/Chapter meeting.

Which Security Certification Is Right for You?

- [Discover](#) which of ASIS's four leading security management certification programs are the best match for your expertise and goals.
- [Certification Handbook](#) contains all the policies and procedures of ASIS's four certification programs as well as the bodies of knowledge for each.
- [Self-Assessment Guide](#) provides a tool to help test takers frame their study needs.

Already Certified?

- [Recertification Guide](#): Explains the policies and procedures for recertifying your CPP, PCI, PSP, and/or APP designation.
- [Preferred CPE Providers](#): Review our growing list of providers to easily identify pre-approved, non-ASIS activities that qualify toward your recertification CPEs.

The ASIS Membership Advantages

You don't have to be an ASIS member to recertify your designation but there are plenty of recertification advantages if you are! Membership alone will earn you four CPEs per year for a total of 12 during your three-year cycle. ASIS Chapter and Council Leadership roles, volunteer work at ASIS, members-only webinars, and more will help you reach your recertification goals and member discounts will apply.

PCB Certification Awards

[Nominations Deadline is 15 June 2021!](#)

The PCB is accepting nominations for the 2021 PCB Certification Awards. Do you have a Chapter member who has helped promote the advantages of being ASIS certified?

A deserving colleague or organization can be nominated for one of these awards:

Regional Award: To recognize certified security professionals who have made significant

contributions to the enhancement and advancement of the CPP, PCI, PSP, and/or APP designation.

Organization Award of Merit: Recognizes an organization displaying outstanding leadership and a commitment to the professional development of their security professionals through certification.

View the online nomination forms and awards criteria [here](#).

Exclusive for Chapters! APP and CPP Chapter Starter Certification Study Kits!

ASIS now offers Chapter Starter Kits for chapters that conduct certification study groups. Each kit includes a Facilitator's Guide, Participant's Workbook, and a CPP Study Manual, and slide

deck. For pricing and other information, please contact: education@asisonline.org.

ASIS Now Offering Remotely Proctored Exams to Spanish-speaking countries!

You can take the exams at a Prometric Test Center or on your own computer using Prometric's ProProctor platform. You will decide which method is right for you when you schedule your exam with Prometric.

If you decide to take the exam using ProProctor, please note that Prometric currently does not have Spanish-speaking proctors; therefore, those choosing to take the exam remotely in Spanish will need to sign this waiver ([Formulario de exención](#)) that says you understand the proctor will only speak English. Send signed waiver to certification@asisonline.org.

We are committed to ensuring our chapters and communities have the tools they need to help get ASIS certified. If you have questions, please reach out to us through certification@asisonline.org.

We hope to hear from you!
